

# Open source software

## Task

In this activity, you will search the web to find popular open source programs that you could use for everyday tasks, school, or extracurricular activities.

### Task

I want a program that I can use to...

### Software

This is an open source program for the task.

---

Browse the web

---

Play media (videos, sounds, etc.)

---

Write documents

---

Edit images

---

Develop programs

---

Operate a computer  
(i.e. an operating system)

---

## Some tips

If you are interested in astronomy, you could search for:

If you want a program for writing sheet music, you could search for:

If there's already a program that you use regularly for a specific purpose, you can visit [alternativeto.net](http://alternativeto.net) and search for an open source alternative.

Enter the name of the program that you are already using in the search box:

Then, filter by specifying that you are interested in programs with an open source licence:

## **Apps for all platforms** with **Open Source** License
