Virtual Asynchronous

Have students watch the video walkthrough of the lesson presentation slides. Students will complete the levels on code studio and the activity guide by themselves while watching the video, which will instruct students to pause, complete a part of a level or the activity guide and come back to the video. Have students write a discussion post in your virtual learning environment for the wrap-up prompts.	**Teacher Prep:** Async walk-through video

Virtual Synchronous

Run the lesson as outlined in the lesson plan. If Breakout Rooms are available, you can have students work with a partner on slides 41, 43-44, & 49. For the discussion on slide 45, have multiple students share their screen with their chart(s). If Breakout Rooms are not available, you can have students put their thoughts in the chat or call on them to share, full group. For the discussion on slide 45, have multiple students share their screen with their chart(s).	**Teacher Prep:**

Socially-Distanced Classroom

Run the lesson as outlined in the lesson plan. When asked to discuss with a partner, just lead a whole class discussion. When students are asked to compare charts on slide 45, you could have some students share their screen to the projector. If that is not possible, create a blank slide deck or document and share with the students so they can add a copy of their charts for all to compare.	**Teacher Prep:** If using, make a blank document or slide deck for students to share charts.
