

Facilitator Guide: Artificial Intelligence in Education Roundtable

Welcome!

At your table, please introduce yourselves by sharing your name, role, and one way you are currently using or interested in using AI in your teaching.

Video

Title: [How AI Could Save \(Not Destroy\) Education | Sal Khan | TED Talk](#)

Video Link is available on our Conference Session Resources page:

<https://edtechnm.wixsite.com/edtechboostnmconf/session-resources>

If a facilitator is not available in the room, please locate the video and share your laptop screen with others in your table.

Video Questions– discuss with your table:

1. What specific examples from the video resonated with you regarding the potential of AI in personalizing learning?
2. Khan mentions potential drawbacks of AI in education. What are your thoughts on these concerns and how could they be mitigated?
3. Do you believe AI can be a powerful tool for promoting equity in education? Why or why not?
4. Share your thoughts on the ethical considerations that should be taken into account when using AI in education.
5. Based on the discussion, what are some initial steps you could take to explore the use of AI in your own teaching practice?

Topic Questions– discuss with your table:

1. How can AI be used to personalize learning experiences for students?
2. What are some successful examples of AI implementation in classrooms?
3. How can AI tools be used to enhance student support and engagement?
4. What ethical considerations should be taken into account when using AI in education?
5. How can educators be trained to effectively use AI technologies in their teaching?

Note-Taking: Yes please! We encourage you to take notes and collaborate with your table. Here are some recommendations:

- Designate someone to take notes during the discussion.
- At the end of the session, summarize the key points and insights shared.

Early finishers:

- set a personal goal related to implementing or exploring AI in your education practice.
- Suggest forming a follow-up group or email chain to share progress and continue the conversation.

Facilitator Guide: Digital Equity and Inclusion Roundtable

Welcome!

At your table, please introduce yourselves by sharing your name, role, and one way you are currently using or interested in using AI in your teaching.

Suggested Video

Title: The Digital Divide, Explained

Video Link is available on our Conference Session Resources page:

<https://edtechnm.wixsite.com/edtechboostnmconf/session-resources>

If a facilitator is not available in the room, please locate the video and share your laptop screen with others in your table.

Video Questions

1. The video highlights the digital divide and its impact on education. What are some specific challenges you have faced in your own context related to this issue?
2. What strategies or initiatives have you seen or implemented that are effective in addressing the digital divide?
3. How can partnerships with tech companies or other organizations play a role in promoting digital equity in education?
4. What are some key indicators that would suggest a digital inclusion initiative is successful?
5. Beyond the video, what additional resources or information would you recommend for those interested in learning more about digital equity and inclusion?

Topic Questions

1. What strategies can schools implement to ensure all students have access to digital resources?
2. How can we address the digital divide in rural and underserved communities?
3. What role do partnerships with tech companies play in promoting digital equity?
4. How can schools support students and families with limited digital literacy skills?
5. What are the key indicators of successful digital inclusion initiatives?

Note-Taking: Yes please! We encourage you to take notes and collaborate with your table. Here are some recommendations:

- Designate someone to take notes during the discussion.
- At the end of the session, summarize the key points and insights shared.
- Designate someone to take notes during the discussion.
- Summarize key insights and ideas at the end of the session.

Early Finishers:

- identify one action you can take to promote digital equity in your context.
- Encourage the formation of a network or group to support ongoing efforts.
- Plan a follow-up meeting or virtual session to discuss progress and share successes.

Facilitator Guide: Personalized Learning Roundtable

Welcome!

At your table, please introduce yourselves by sharing your name, role, and one way you are currently using or interested in using AI in your teaching.

Suggested Video

Title: [The Power of Personalized Learning | TED-Ed](#)

Video Link is available on our Conference Session Resources page:

<https://edtechnm.wixsite.com/edtechboostnmconf/session-resources>

If a facilitator is not available in the room, please locate the video and share your laptop screen with others in your table.

Video Questions

1. The video presents both the benefits and challenges of personalized learning. What are your personal experiences with these aspects?
2. How can technology be effectively used to support the development of personalized learning plans for students?
3. What data do you find most valuable in personalizing learning, and how do you ensure responsible data collection and use?
4. Balancing personalized learning with standardized curriculum requirements can be a challenge. Share your thoughts and strategies for navigating this.
5. Based on the discussion, what is one specific action you can commit to taking to implement or further explore personalized learning in your classroom?

Topic Questions

1. What are the benefits and challenges of implementing personalized learning in the classroom?
2. How can technology support the development of personalized learning plans?
3. What data should be collected to effectively personalize learning for students?
4. How can teachers balance personalized learning with standardized curriculum requirements?
5. What are some examples of adaptive learning technologies that have been effective in your classroom?

Note-Taking: Yes please! We encourage you to take notes and collaborate with your table. Here are some recommendations:

- Designate someone to take notes during the discussion.
- Provide a summary of the main points and ideas at the end.

Early Finishers:

- Implement one new personalized learning strategy in their teaching.
- Suggest creating a support group to share experiences and resources.
- Plan a follow-up check-in to discuss progress and share updates.

Facilitator Guide: EdTech Integration in Curriculum Roundtable

Welcome!

At your table, please introduce yourselves by sharing your name, role, and one way you are currently using or interested in using AI in your teaching.

Suggested Video

Title: [How to Strategically Integrate Technology: The Blueprint | New EdTech Classroom](#)

Video Link is available on our Conference Session Resources page:

<https://edtechnm.wixsite.com/edtechboostnmconf/session-resources>

If a facilitator is not available in the room, please locate the video and share your laptop screen with others in your table.

Video Questions

1. The video emphasizes the importance of strategic integration of EdTech tools. Share some examples of successful EdTech integration you have observed or implemented in your own teaching.
2. What are some common barriers you encounter when trying to integrate EdTech tools into your curriculum? How can these be overcome?
3. How do you stay updated on the latest EdTech tools and trends that could be beneficial for your students?
4. Beyond the video, what resources or professional development opportunities would you recommend for educators interested in learning more about effective EdTech integration?
5. Based on the discussion, what is one new EdTech tool or strategy you are willing to try in your classroom and how will you measure its impact?

Topic Questions

1. What are the best practices for integrating EdTech tools into the existing curriculum?
2. How can educators measure the impact of EdTech on student learning outcomes?
3. What are some common barriers to EdTech integration, and how can they be overcome?
4. How can teachers stay updated on the latest EdTech tools and trends?

5. What are some innovative ways to use EdTech to enhance student engagement and participation?

Note-Taking: Yes please! We encourage you to take notes and collaborate with your table. Here are some recommendations:

- Designate someone to take notes during the discussion.
- Summarize the key insights and ideas at the end of the session.

Early Finishers:

- Try a new EdTech tool or strategy discussed during the roundtable.
- Encourage forming a group or forum to continue sharing experiences and resources.
- Plan a follow-up session to discuss the implementation and outcomes of new EdTech integrations.
