

Burr School Mission Statement

Burr School is a diverse community of children, educators, families, and administrators. Our mission is to actively build and sustain a culturally responsive learning community dedicated to nurturing all students' social, emotional, and academic abilities while building empathy. Together we believe that our school community can support each other's learning so that each of us develops to our fullest potential and into life-long learners. We will work every day to be strong leaders who can advocate for anti-racism and our school's core values within and beyond the school's walls.

Core Values: Teamwork, Compassion, Respect, Perseverance
