

MISCELLANEOUS - Fan-Patched Games:

Fan-patched games are games with translations done by fans for fans. Translations are typically more literal and contain many of the traditional Japanese honorifics. They may also contain original Japanese nuances and jokes/comedy that don't translate well to English so are left as is.

To play a fan-patched game, you must acquire a copy of the original (Japanese) game and follow each fan patch's specific instructions to install it. Most, if not all, fan patches on PC require a system locale change from [your current country] to Japan.

All games below feature full voice acting.

=> *Frequently recommended for beginners*

Summary: The game takes place at Habataki High School seven years after Tokimeki Girl's Side 1. There are a total of six new bachelors plus three secret characters.

TMGS 3 implements a totally new system; the Love Triangle. Instead of rival girls liking your man, all six bachelors are paired with another, making it so that you can 'date' two of them at a time. TMGS 3 also introduces a revamped clothing system with a few new clothing styles and the ability to 'level up' your fashion.

Platform(s): Nintendo DS, PlayStation Portable

Length: >50 hours

Story: *Character/Romance Focused* | Plot/Story Focused

Gameplay: *Stat-raiser* | *Choice-based*

Additional Notes: Although TMGS games all belong in the same franchise, each is a standalone game that only contain minor references to previous games. The 3rd game is usually recommended to newcomers due to being more forgiving than the first (most difficult) and second (medium difficulty), with greatest variety of endings available.

To get the ending you want, it's highly recommended to play with a guide. (Or at least to look at the stats requirements for the guy you're aiming for.)

[Ayakashi Gohan](#)

=> ***Frequently recommended for beginners***

Summary: Once upon a time, a long time ago... It is not.

In the corner of a certain village where ayakashi and humans coexist, there is a shop that serves meals for ayakashi. The name of this eatery is "Ponpokorin". In that store, both ayakashi and humans visit it seeking to have a delicious meal. The shop owner is a youko (a mythological fox spirit) taking on a human form.

"Everybody can be happy if they can have a delicious meal." That was the youko's creed. The youko and its soon-to-be 7-year-old son continue to cook delicious meals to this very day.

One day, as the hot summer ended and the harvest of autumn approached, a lone girl enters the youko's store. From that moment onwards, the story begins.
