

JD For Magento Developer

Job Title: Magento Developer

Company: [Company Name]

Location: [City, State]

Job Description:

We are seeking an experienced Magento Developer to join our team. The successful candidate will be responsible for designing, developing, and maintaining e-commerce websites and systems using the Magento platform. They will also work closely with other developers, stakeholders, and the product team to gather and analyze requirements, design solutions, and ensure the delivery of high-quality software. This is a full-time position that offers a competitive salary and benefits package.

Key Responsibilities:

- Design, develop, and maintain e-commerce websites and systems using the Magento platform
- Work closely with other developers, stakeholders, and the product team to gather and analyze requirements
- Stay up-to-date with the latest Magento technologies and industry trends
- Ensure compliance with legal and regulatory requirements
- Collaborate with other teams to identify and implement IT solutions
- Identify and respond to IT incidents and implement appropriate countermeasures
- Provide training and education to employees on IT best practices
- Participate in code reviews and ensure adherence to best practices for software development

Technical Competency Requirements:

- Strong understanding of Magento principles and practices
- Experience in designing, developing, and maintaining e-commerce websites and systems using the Magento platform
- Strong understanding of web development concepts and technologies, such as HTML, CSS, and JavaScript
- Experience with web services, RESTful APIs, and microservices
- Familiarity with industry standards and best practices

Strong analytical and problem-solving skills
Experience with Agile development methodologies and continuous integration/continuous delivery (CI/CD)

Behavioral Competency Requirements:

Strong attention to detail and ability to meet deadlines
Excellent written and verbal communication skills
Proven ability to work independently and as part of a team
Strong analytical and problem-solving skills
Passion for technology and a willingness to learn new skills
Strong understanding of compliance and regulatory requirements

Qualifications:

Bachelor's or Master's degree in Computer Science, Information Technology, or related field
Minimum of 2-3 years of experience in Magento development
Strong portfolio of relevant work experience
Professional IT certifications such as Magento 2 Certified Professional Developer or Magento 2 Certified Solution Specialist are a plus
