Subject Line: I Just Stared In Disbelief...

When everything was lost, a choice had to be made.

As a novice copywriter, I had scored significant payments.

But then, after AI became popular, my career took a nosedive.

First, two top-paying clients fired me, followed by three more.

Clients vanished, along with my job and hope.

I had to face a pivotal choice:

abandon copywriting for a 9-5 job, regretting that for the rest of my life,

or fight for my passion: influencing through words.

Succumbing to stress or embracing growth. It was up to me.

Thankfully, I stumbled upon [brand/guru's] social pages.

They empowered me to retake control over my career and earn more than \$10K/mo.

If you want to discover how YOU could earn 10K/mo, then follow [brand/guru] here for free daily guidance.

Subject Line: Why AI Will (Not) Replace You.

Are you afraid of being replaced by AI ?

The threat isn't AI alone, but the competitors who constantly study and utilize it.

It's not just about Chat-GPT or Dall-E anymore:

Many Copywriters are already leveraging very specific, hyper powerful AI tools to create persuasive copy and are earning more than 50k/mo.

Therefore, If you don't learn how to use AI TODAY, those who do will crush you in a matter of months.

They'll leave you with no clients, no money and no hope.

These are the types of people you'll compete against.

You either get on top of the competition, or you get crushed.

You either win, or you lose.
