

# Prevent AoPE Emails from Getting into Spam Folder

Some parents have missed our emails including enrollment invitations and other important communications. We will communicate with parents and students via email weekly during the course period, please make sure that emails from the following addresses do not go to your spam folder.

If you are using Gmail, there is an easy way to do that.

1. Click on the gear icon  at the top right corner of the Gmail web interface to open the setup menu and then click **“See all settings”**
2. In the Settings section, click **“Filters and Blocked Addresses”**
3. Click **“Create a new filter”** at the lower part of the page
4. In the dialog opened, fill in **“From”** field with **“artofphysicsedu@gmail.com OR no-reply@artofphysicsedu.com OR noreply-lms.aope.us@sitemail2.unhosting.site”** (use the exact text between the quotation marks including **“OR”**) and then click **“Create filter”**
5. Check the box for **“Never send it to Spam”** and click on the **“Create filter”** button

Now, our emails will always show up in your inbox.

Art of Physics Education

Physics is everywhere;

Find why & how here.
