

Maro 4 holyrood!!!!!!!!!!!!!!!!!!!!!!

Hello, my name is Maroiogog and I am running to be an independent member of the Scottish parliament.

I am a socialist and I believe in the continued existence of the Union. I am also a Eurofederalist.

I am currently a member of the House of Lords, and I use my position there to check legislation and contribute to the debate, according to my own views, to my own experience on the subject matters and ensuring best practices in legislation are upheld.

I think that in a chamber full of parties and of divisions such input might be needed and cherished by others. This is why I am running to be a member of the Scottish Parliament, and I hope you will support me on my mission.
