

For each statement select the response that best fits your current understanding and practice. It may be helpful to think of a recent time when you used the skill or concept.

- 1 means Very untrue of me (0% of the time)
- 2 means Untrue of me (less than 20% of the time)
- 3 means Somewhat untrue of me (about 40% of the time)
- 4 means Somewhat true of me (about 60% of the time)
- 5 means True of me (about 80% of the time)
- 6 means Very true of me (100% of the time)

How do I approach research and inquiry?

I learn best when I'm interested in the topic and want to know more.

1 to 6 ranking scale

I ask myself if all significant questions are addressed in the information sources I've collected.

1 to 6 ranking scale

I connect important ideas and information from multiple sources.

1 to 6 ranking scale

I am good at keeping information organized as I research.

1 to 6 ranking scale

I ask myself periodically if I'm considering multiple perspectives during research.

1 to 6 ranking scale

I can choose a research strategy that fits a particular question or line of inquiry.

1 to 6 ranking scale

I regularly pause to summarize what I've learned so far and draw connections among my sources.

1 to 6 ranking scale

I embrace discomfort when I don't know the answer or outcome of my research question.

1 to 6 ranking scale

I can create a research question that addresses gaps in existing or conflicting information.

1 to 6 ranking scale

I try to break down the research into smaller steps.

1 to 6 ranking scale

I periodically review the assignment or task to help me focus my research.
