Neutralization of vaccination political commissars

-

Vaccination political commissioners are all influential VIP public figures who agitate and propagate or decide on vaccination with experimental covid vaccines, regardless of whether it is mandatory or optional vaccination. The **Yoda portal** contains compelling scientific and statistical arguments proving a vaccination genocidal conspiracy against humanity. An inconceivable crime is taking place in which vaccination political commissars are the perpetrators of genocide.

Vaccinated young women are potentially doomed to give birth to defective children. All other catastrophic - genocidal consequences of new vaccines threaten those vaccinated. All vaccination political commissars are therefore criminals against humanity. They are hired and paid for their crimes by global 'masters', including vaccine providers. Let us therefore neutralize local and international vaccination political commissars. We can do the same with villains from our private sphere. And we can also add international officials (WHO, EU, etc.)

We therefore focus on **selected national criminal actors** who appear in public with sponsored statements and vaccination measures. The most important are: the Prime Minister, the President (of the Republic), ministers, government expert advisers, media officials, etc. In the vaccination - genocidal conspiracy against their people and citizens, of course, VIPs of vaccine manufacturers are also involved.

What is meant by neutralization? We use quantum information technology according to dr. Grabovoi with our concentration on the numerical string 6951397 and on the selected target person, or more persons. Grabovoi's technologies derive from the Universal Norm of Natural Law. We cannot harm others with them for negative reasons, because they do not work in such cases.

6951397 ELIMINATION OF EVIL ACTION OF BAD PEOPLE

Here are some suggestions and instructions for using the above numerical string on the selected person (s). Depending on our training, concentration can be performed in different ways, either individually or collectively. In the case of collective management, the effect is increased by a factor of 7 on the power of n-1. N is the number of participants with the same agreed task and goal. Ambulance sirens are a constant audible vaccination reminder ....

An individual can at any time repeat an **evenly consecutive concentration on individual digits of a number string from left to right, while concentrating on the target person**. It can be just mental - or perfected with visualization. Concentration is more effective when visualizing numbers in silvery white light and simultaneously visualizing the target person, or their name. More info is in the forum category **Information for a New Era**.

How can we work on more selected people? One of the simplest protocols is the following. Imagine a translucent management sphere in front of you and mentally write 6951397 in the silvery white light of numbers on the inner surface. Visualization can be supported by an appropriate display in front of you, or a picture that is in **Visualization of silvery-white light of numbers**. Above the number string we mentally write in silvery white light NORMA.

Next to the management sphere, imagine a **smaller dark target sphere with the names of selected villains**, or their images. We mentally move the target sphere into the interior of the control sphere and allow the quantum action of information. We may notice or visualize the purple coloration of the target sphere - transformation. We can add a small silvery-white sphere of NORM to the target sphere and observe the spill of silvery-white light on the whole sphere.

We conclude with harmonization - 741, 741, 741 and materialization 889.8.

We thank the Creator and dr. Grabovoi.

MORE RADICAL NEUTRALIZATION OF GENOCIDE EVIL

-

I will present a more radical generalized variant of neutralizing the national genocidal vaccine evil created jointly by POLITICS, MEDICINE AND THE MEDIA.

We will add a numerical string to the management from the previous descriptions to stop the negative action immediately and manage according to the principles of collective action. The results cannot be missed.

4748132148 immediate cessation of negative operation

6951397 annihilation of the atrocities of corrupt and evil people

A brief description of one of the possible management protocols for VACCINATING EVIL NEUTRALIZATION is as follows.

Imagine a transparent control sphere in front of you and visualize its interior - write both of the above proposed numerical strings, which should glow in silvery white light. In the sphere we visualize the shining silver-white inscription NORMA above the strings.

Next to the management sphere, we visualize a small dark target sphere, which we define descriptively: ALL ADVOCATES TO POLITICAL VACCINATION, THE MEDICAL PROFESSION AND THE MEDIA FROM THE COUNTRY. This can be supported by visualizing the appropriate label in or on a dark target sphere.

The target sphere is moved to the control sphere and transformation is allowed. We observe - we visualize the purple color of the target sphere - transformation. We can add a small silver-white sphere to the target sphere and observe the spill of silver-white light throughout the sphere - normalization.

In simplified management, we think of the EVIL TRINITY with a mental or verbal statement: POLITICS, MEDICINE, MEDIA. To this we add the concentration and visualization of both numerical strings.

Finish with harmonization 741 -3x repeat and materialize 889.8. We thank the Creator and dr. Grabovoi.

-

Good visualization is facilitated by a silver-white numerical display, a silver-white LED lamp, or a picture of such light in front of you. Practice makes perfect.

-

Let us save our lives and the lives of our fellow citizens. We fight with the help of light. Now it’s about being or not being. Some will realize this too late, and many have unfortunately already died or become disabled as a result of genocidal vaccination.
