

It's A Gundam parody meme recording and submission instructions

Intro:

In 2020, New Mobile Report Gundam Wing aka Gundam Wing will be celebrating its 25th anniversary after originally being released on April 7th 1995. During the series a lot of grunt pilots usually in Leo or Aries mecha units robots shout "It's A Gundam " usually in fear or shock seeing a Gundam like Wing Zero Gundam TV ver before nearly all times get killed.

As an April fools joke, I decided to get a compilation of different people saying or shouting "It's A Gundam" just like the series.
