Seed Packet Scavenger Hunt

Knowing how to read a seed packet will help you become a great gardener! Take a close look at the picture of the seed packet. Read the different terms. What might they tell us about how to care for our seeds?

Use the color coding below to find information on the packet:

Planting Depth - how deep to make your hole in the soil

Spacing - the space between your seed holes

Germination - how many days your seed will take to sprout

Maturity - how many days until your plant is ready to eat

Packed for (circled in white) this is the year you should plant your seeds in the soil

This lesson is adapted in part from the Edible Schoolyard Project

GroundEducation

Use the picture of the seed packet to answer the following questions...

1. What type of seeds are these?
2. You found the planting depth circled in red. How deep should you plant these seeds?
3. When will these plants be ready to harvest and eat?
4. How far should you space out your seed holes?
5. Find two other interesting facts on the seed packet
