Attention: Breakout CEO 2.0 Now Live!**

Hey there,

Firstly, massive thanks for checking out this doc.

You are reading this awesome doc as you are either

- 1) You've expressed interest in getting your online business on absolute steroids and...
- 2) Looking to Breakout into Generating \$10k - 50k/months consistently.

Why not have both? Eh?

If you feel like you are wasting your valuable time in trying to grow your business through purchasing products that make fake promises... push button softwares that actually don't work.. AT ALL...

Or even... just feel like your pouring money into a bottomless pit with no real direction or traction and getting little to ZERO results.

Ultimately.... You feel like you are in a place where you are literally about to throw in the towel...

I get it... I've been there. It's a constant grind especially when pulling in small commissions with very little return on your investment.

Now, Let me be clear.... Everything I have mentioned above... DOES NOT WORK....

But what if a proven method, and being supported by a 7-figure income earner help guide you on your journey.

My mentor James literally started with only just pennies... in his pocket. He mentioned that he failed probably hundreds of times over the past 5 years... Until he created a simplified process... that works...

Honestly... take a moment, have a think... What would that level of income mean for you?

I'm talking about actually earning affiliate commissions consistently day after day... where you are Bringing in more leads to your business that will continually buy from you over and over...

And it won't just be those small \$10, \$30 or \$100 commissions... sure they are great...

But we are also talking about leveraging an additional \$500 - \$3000 per sale...

And this can literally be you within just the next 7 days... Just by becoming a member of Breakout CEO...

The 30,000 Foot Overview of Breakout CEO

Breakout CEO is geared to have you learn the fundamentals of building a business 'built on steroids' and that will be profitable in the long term.

Long term? Yes, this will arm you with powerful bank stacking skill sets... Allowing YOU to never rely on anyone but yourself for fat weekly paychecks....

It's pretty powerful being able to draw down from my account and do spur of the moment trips to Bali, all around Australia and go to sporting events and even just out for dinner any time I like...

We are going to teach you everything that works with high ticket affiliate marketing, email marketing, building profitable list building funnels, and additional powerful strategies to arm yourself to achieve 10k/mo within just 30 days.

This program is specifically for those that are looking to leverage James' proven training in addition to resources, strategies and methods that has generated him over \$1.7 million in earnings in just 18 months.

Even George admitted how he learned directly from James from this strategy to smashing \$500k in Affiliate Commissions in Just 12 short months.

True Leader. Mentored by you, I believed in you, and I generated 500k in revenue in less than a year. Not bad, right? Nice photo mate!

With this locked and loaded into your arsenal this will place you in a powerful strategic position to increase your monthly revenue in your online business through constructing and molding a powerful revenue building business.

The income generating strategies will have yourself perplexed as to:

- 1) *“Why haven’t I been able to earn past the \$10k/mo sooner....”*
- 2) *“Why I couldn’t build a consistent business with commissions flowing into my accounts more quickly...”*
- 3) *“Building my own independent successful business that does not rely on others’ failures ”.*

This is why James has created Breakout CEO.

Tbh, I’m going to be straightforward with you....

You can literally do this two ways.....

- 1) Read this document... go away, try and do it yourself and waste... like 6 years like I did...
- 2) Take the short-cut to success and see that success flourish in your business within just 30-90 days...

Not being able to tap into Our successful strategies outlined with the Breakout CEO coaching program will only just allow you to continue to be held back from achieving that \$10k-15k per month mark..

In the past 12 months, I’ve never seen so many people fail, day after day, because they decided to try and figure it out for themselves. Frustrations, more wastage with financial resources.

Positioning yourself and leveraging others success... certainly allows you to take advantage to achieve entrepreneurial success.

Here's a snapshot of What Breakout CEO can Truly Do.

James is personally responsible for creating 6 Figure entrepreneurs within short periods of time.

Through the power of this method, the Breakout CEO method has personally injected millions in additional commissions for students over the last 18 months.

New members are enjoying fast up-front results, allowing them to hit \$1,000+ commission days quickly.

It's literally taking you... through a process where you can:

- 1) Build your own customer base immediately...
- 2) Refer those customers to other people products and earn commissions
- 3) Have those customers buy from you over and over and over....for bigger commissions.

This method is also proven to generate quality leads to your business organically, allowing YOU to optimize your return on investment, and enjoy High Ticket commissions in excess of \$3000+.

E.g. James' facebook community has reach over 1,400 members and this strategy will be directly taught by him where you can leverage a similar audience to maximize sales and revenue in your pipeline.

As of this moment, James is the No. 1 Affiliate on Warriorplus (a Major Digital Product Marketplace) for the Past 12 months, again generating just under \$1.7 million in revenue since January 2020. This program reflects what he does daily within his business, so YOU can take away the exact strategies and apply and enjoy the power of generating income daily.

The benefit of this program is proven to be an asset to those that have implemented and taken action on it's core strategies.

But as I have mentioned before... there is really on 2 ways you can go from after reading this personal note to you.

- 1) Try to figure out what I do blindly... and take 3-4 years in figuring it out... Keep buying the wrong products... or “next shiny thing” that will continue to lead you to nowhere.

Or...

- 2) Jump into the Breakout CEO program, actually ACCESS the true evergreen strategies and implement these quickly... and in 30-60 days... you could potentially be earning 5 figure consistently....

Breakout CEO
Cynthia Benitez · 22 m · 🌐

Had my 1-on-1 call with [James](#) the other day and was the best call I've had with a mentor. He answered all my questions and doubts in depth and gave me a whole roadmap specific for my business on how to take it to the level I want and how to achieve my goals this year, apart from giving me an insight on things that are working for him at the moment.

As I told him, he is always very generous with his time and knowledge (even for free), so it's a no brainer to pay him any amount of money to pick his brain, as he knows what he is talking about when it comes to business in our space and it's one of the few marketers that I've seen around that actually really cares about people succeeding and he enjoys helping and seeing you win.

Thanks James for all the help 😊🚀
