Checklist of Manuscript components submitted to the Journal Studia Philosophica et Theologica

Please check your article and tick the checklist column-only articles that match the components will be processed further.

No	Article	Details	Cheklist
1	**Article title**	Effectively reflects the most important issue of the article	
		Specifically while reflecting the universal impact and value of the findings	
		Invites the reader's curiosity	
2	**Author Name**	Complete, without adding qualifications, academic positions, and ranks.	
3	**Affiliation**	The author's affiliation (name of institution, address, country) is written in full, by the standards for writing the name of the institution at the institution and not abbreviated.	
4	**Abstract**	Use 150-200 words (shorter than the introduction)	
		Indicates the items of problem formulation, research objectives, research methods, findings, and conclusions.	
5	**Keywords**	Selected words represent the most important things related to the article (topic, method, results, and discussion, or keywords from the conclusion)	
6	**Introduction**	Contains a clear problem formulation	
		Contains a comprehensive literature review that shows a good gap analysis process that indicates the state of the art, novelty, theoretical basis used, or the research method chosen.	
		Provide more complete information, compared to the abstract, about the problem formulation, article objectives, methods, findings, and conclusions.	
7	**Methodology**	Research methods explain how the data was obtained and how it will be processed.	
8	**Contents and discussion**	Present the findings clearly and systematically.	
		The discussion contains: counter theory and shows limitations or the need for further study.	
		The findings have a positive impact on the development and advancement of certain sciences.	
9		Follow the citation rules of the Studia Philosophica et Theologica Journal. Refer directly to the Chicago Manual at the following link: https://www.chicagomanualofstyle.org/tools_citationguide/citation-guide-2.html.	
		Contains a greater proportion of primary and recent sources. (Last 10 years, preferably from academic journals)	
10	**Reference system and bibliography**	Articles and references have been checked with a trusted reference management application such as Mendeley.	
		The length of the article is between 5,000-8,000 words.	
		Use standardized and valid terms according to the field of science.	
		If it contains tables and graphs, the presentation and description follow scientific principles.	
		Show appreciation and respect for other parties who help the research process.
