

Name _____ Date _____ Hour _____

Cool Jobs One Pager

Read the assigned *Cool Jobs* article. Then on the back of this page or on a separate sheet of paper, create a one-pager:

1. Divide your page into six sections. Leave room around the edge for a border. You can make the sections in whatever shape you want. **PUT YOUR NAME ON IT.**
2. In the sections, draw/write/color:
 - a. A title
 - b. Make one section for each of the following:
 - i. Who was the article about? Write a short summary.
 - ii. What career is featured in the article? Describe it. Draw a picture showing a person doing this job.
 - iii. Choose one Power Word that is new or unfamiliar to you. Write the definition in your own words and draw a picture to help others understand its meaning.
 - iv. How does this career connect to something you have experienced or learned about?
 - v. What is one thing about this career that you find interesting or surprising? Why?
3. **Make a border** for the entire page. Use a word or symbol as part of the border design.
4. Use a lot of **color and illustrations** throughout your page.

Here are some examples so you can see what they might look like:
