

Hi this is going to be a doc going through my experiences with wis-art and wolfertinger666 aka salem aka puppychan.

Setting and timeline.

I was aware of salem back around March 2022 into april 2022 I was around for the egodeathprower account. I had very little knowledge on what was going on and at the time did not wanna get into any drama. Someone I knew was dating him. This would be torin. According to salem and torin they would enter a relationship in May 2022. I would start getting pulled into it from May and into September when Torin would then pull me into a polycule with the both of them. She was flirting with me for months and I am unaware if salem was aware of this. We all three would date for 3 months. The breakup was due to torin being inappropriate with multiple minors and I confronted her about this. I gave her an ultimatum and to save herself she acted like she broke up with me and I was some spiteful ex. Torin was doing this for a while. She tried to blackmail me into silence by using kinks me and her shared against me. Which I kinda don't care anymore but at the time I was 21. Me and torin were 2 years apart and me and salem were 1 year apart. It just looks weird since My birthday is in march. 19 to 21 is like nothing. Me and salem's relationship was not sexual while torin was extremely hypersexual towards me. Where I had to beg and ask torin to stop asking to erp with me or forcing me into triggering erp.

I had to contact salem in January 2023 for a commission he owed me. He bought doordash for himself and then just never did the art he promised so I had to ping a alt of his. He had a lot of

“parody accounts” he was using in order to get the comm. This was a month or so later.

We would end up talking for a bit and he would flirt with me and admit he did have feelings for me still. He said he didn't want to pursue anything and respected that. I at the time didn't realize I was aroace. I knew I was grey-ace but not aromatic. He would go back and forth to torin despite being in the server where i confronted torin and with evidence he downplayed it all. I cut him off in march for being in contact with torin. In october I would have contact via lilya.

also your girlfriend trying to worm her way towards me by drawing me fanart despite associating with you while saying things like "im the liquid puppychan of this era" is not only hurtful but beyond creepy.

Salem, your actions still have consequences and so do lilyas. As for my partner, she genuinely just wants to talk about art with you. I have already told her I don't care if you both talk or not. Lilya stalking and harassing me on alts is ridiculous. It's disgusting behavior. And stalking? You know I have ocd salem. Why the fuck would you start saying shit like that?

He would vague and talk bad about me for months. I would meet Mari in July of 2023 but would not date her until August 2023. I knew about mari vaguely since she made pepper fanart. Mari and lilya discord server arc.

9:26 AM

Yeah I am just saying what I really I guess want to publicly if I can. But I don't like being involved. But I do know a lot more than people on twitter do.

9:28 AM

Feel free to say what you are comfortable with saying, this convo will not get anywhere else than here, if i do would like to talk about it with someone, would be with meggiebun but i would first ask you permission to do so

Lilya would post things to kiwi and then harass me on [e621 for months over pepper](#). A white dog.

Mari would get in and out of contact with salem in september and on and off until march 2024. Salem would tell me that he and wis were dating that march. Around april mari would be cut off from salem and she would have a tantrum to me over it. She would try to pull salem in my life despite me telling her directly to leave it alone. This would all get blamed onto me. April-may I would get a cease and desist from torin and her threatening to doxx me. She would call cops to my residence and falsely report me as stalking her and visiting her state. None of that happened. From april 1st to the 12th I was in montreal. I did get stuck in ATL because my red eye **gate closed early**. proof:

July 2024 Toby (doggsbones/dogtrest) would take screenshots from mari and call salem out on twitter. I had vented on my private account about him returning and it spread because mari said something on hers. I again get blamed.

I vented on my PRIV about you coming back to twitter. And mari did too and I guess toby saw.

Sorry im like at work

Also crazy how torin had a kiwi account

Like I don't want an acc i dont need to explain myself besides my own public accs (edited)

Which, salem you had alts why do you keep claiming you have SO much trauma when you have used twitter even this year?

Message @salem...

Salem would run off twitter again.

September 2024 Salem would blame me for the toby callout. I brought up the sexual harassment he did to me and he denies it. Surprise to nobody. He would apologize to then dismiss it. We would be on and off contact for a while. I would confront him over torin that july and he did not cut her off until august.

July.

August is when the docs started being looked at more closely.

When he was told to cut her off before then.

Salem's friend asked even about it and said it wasn't okay.

They said that torin was making everyone uncomfortable.

Mari would visit and i have already stated how that went. But I would break up with her October 15th. She would on and off be in contact with me. I would get a dm on November 20th from wis asking what happened. I have shown the screens to this mostly what was important. I found out the day that I broke up with mari, that morning that she assaulted me in late december 2023. In my document ([it's a wip but I can post what I have rn](#)) Wis admitted to mari admitting she assaulted me and this was nothing new. I found from mari that salem gave her nyakoh. Which why the hell are you giving someone **WHO ADMITTED TO SEXUALLY ASSAULTING ME SUPPORT AND CHARACTERS.**

Message @Mari..

The context to this one was mari made sexual art and talked about me and another person sexually (during a polycule) when me and this person had only been friends. Again I am aroace, I am sex indifferent but that doesn't mean **sexualize me with someone I barely know**.

December 17th 2024

December 24th 2024:

December 2024 through February 2025 I would be in and out of contact with mari. We ceased contact Early February.

hey, first, I'm sorry about my gf Wis getting involved into this. that's that. and two, I'm sorry for spewing all that mean shit about you. I was genuinely coming from a place of hurt and acting on my emotions. three I'm sorry me and Wis were looking at your account alot, we were checking because you were saying stuff about me and were spreading stuff to other people about me through my tag but honestly I want to put that behind me and say I forgive you for that. and Im sorry I said those genuinely hurtful things in the group chat especially when you were dealing with death/ grief. it was extremely inappropriate of me. I do not expect you to accept this apology and you are well within your right to be upset at me. I'm sorry I caused you so much grief Sawyer. I deleted my cohost post and I'm about to delete my bluesky post too. I'm sorry once again.

idontgotohisparty 06/25/2024 3:47 PM

What was the bluesky post? I understand being hurt but I also haven't posted anything on your tags since the torin stuff.

hey, I'm sorry Wis got involved she's just trying to help out with the situation. I don't hate you and you don't intimidate me but Sawyer/moth does a lil bit and I want things to not be so hectic between all of us because it's stressful. I'm sorry nana went off at Sawyer and I'll apologize to her over that later and as for Mimi I do want her to get better and see her grow as she promised to me that she won't repeat the same behaviors from before. and some things involving Mimi are half truths as well. as I'm told two different things. I won't give Mimi a platform tho as I do not follow and deleted reblogs from her. as for removing her on discord I want to keep contact so she can change because removing someone from their system of support to getting better keeps them from growing and me and torin have been through so much shit together so it's hard to cut her off. if she repeats something inappropriate again which she told me she won't, I won't hesitate to cut her off instantly but as for now I wait.

I will talk to Sawyer/moth about this later and I apologized I freaked out so bad. I do want us to stay friends and help you grow as an artist. please take care.
you are not a bad person btw

Not following each other

hi, i know we definitely got off the wrong foot especially with me being a massive dick to you and your girlfriend. I now understand why you were so adamant about torin and why you were so mad about salem talking with her. While i know you had good intentions and i know you wanted to protect salem and i see that now, there were steps i find unacceptable, he needed love and support not vitriol and frustration, though this is not really a fucking message to be shitting at you any more I am sorry, I really should have been kinder. I talked with salem in the morning and he just casually mentioned some things that made me feel really strange about his ex polycules etc. Knowing he is extremely traumatized and at the time he was very extremely vulnerable emotionally, he needed any sort of love and validation and i really think torin took advantage of it, I do not think salem was supporting torin i think salem was scared of losing another friend and i also think torin abused him, i think salem had a crazy stockholm syndrome.

Your message here

Does Stockholm syndrome actually exist?

Stockholm syndrome describes the psychological condition of a victim who identifies with and empathizes with their captor or abuser and their goals. **Stockholm syndrome is rare; according to one FBI study, the condition occurs in about 8 percent of hostage victims**. Mar 18, 2025

I'm gonna call bullshit on this sorry. I can agree torin's abuse was **bad** but not. Enough to cause stockholm syndrome via internet. I would understand if it was irl but this was all online.

If you're gonna let your nazi-esque girlfriend call me white and be racist as hell I think I can poke holes in your already bullshit stories. Sorry I am gonna be mean here.

My first interaction with wis was her going to my tumblr and harassing me. As seen with these posts:

I try to be reasonable but I blocked her. This became so regular from her.

I took a break from talking about this from November 2024 to January 2025 because I would get gastritis and vomit almost every meal ever. But through out that time salem would still vague me and mari would still cause bullshit as seen in the other document. I found out in December after some talking and coaxing that mari lied to literally everyone about this including wis and salem. She went to them admitted the whole thing and is now trying to twist it as she's some victim.
