

Weekend project: My novel

29 Jul 2022

You will write your own novel using the following title:

The boy/girl who saved his/her village from the pack of ancient evil wolves

The overall plot is:

There was once a pack of evil and unnatural wolves that harmed people and ate all of the human's livestock. They brought destruction and terror everywhere they went. Until one day, a wizard used his magic to seal the wolves in a cave. For 1000 years they slept, until the magic became weak and the sealed door of the cave broke. A brave young boy/girl saw the door break and the wolves coming out. She/he decided to save his/her village before it was too late.

Project rules:

- The novel must have 3 chapters.
- You will have to plan for each chapter before you write your novel. The planning has to be exactly the same as we did it in the group writing.
- After the planning should come the novel. I suggest having a first draft, which you are allowed to be untidy and make visible corrections. However, your final draft has to be free of untidy handwriting, sentence mistakes and spelling mistakes.
- This will receive a mark that goes towards your report. It is due for the week of the 1st August.
