Agenda Item #1

The Sustainability Committee is hosting a student sustainability pitch and present competition during Fall 2022 semester with the narrative portion of the applications due Oct. 19th 2022 and the video portion of the pitch due Nov. 4th 2022. Prizes will be available and the winning idea will become a sustainability initiative prioritized by the Sustainability Committee. We encourage any interested faculty to incorporate this into their Fall courses as a project or for extra credit. A detailed announcement is being shared with this report.
