

This is the place where names/contact info will be dropped and save in batch then sent to Gunner [[gunner@aspirationtech.org](mailto:gunner@aspirationtech.org)] on Feb 1.

To demystify the “RSVP Type” category - there are three options available in the dropdown:

1. Email - the user responded to the [info@internetofproduction.org](mailto:info@internetofproduction.org) email account listed in the [“SAVE THE DATE” posting](#) on the community forum.
2. Outreach - one of us (Gunner, Nathan, Sarah) reached out directly to someone recommending they attend, and they confirmed that they will (whether via email, phone, text, etc).
3. Forum - a user indicates on the Discourse forum posting that they are either “Interested” or “Going” to the event. This will require the extra legwork of getting their email address for Gunner.
