Unlock the power of the Ohio Report Card with our comprehensive professional development workshop designed to provide educators, administrators, and teachers with a deep understanding of this vital tool for assessing and improving educational outcomes.

Key components of the workshop include:

- Overview of the Ohio Report Card: Gain insight into the structure, components, and indicators featured in the report card, including performance measures, achievement metrics, and growth indicators.
- Interpret Performance Data: Learn how to interpret various performance metrics, including proficiency rates, graduation rates, and progress measures, to assess the strengths and areas for improvement within your school or district.
- Explore Subgroup Performance: Understand how to analyze subgroup data to identify achievement gaps to support all students..

Through a presentation provided by the Office of Accountability, Ohio Department of Education and Workforce (ODEW), participants will leave this workshop empowered with the knowledge and skills needed to navigate the Ohio Report Card and confidently and strategically drive positive change within their educational communities. Join us in our commitment to leverage data to ensure students receive a high-quality education that prepares them for success in college, career, and life.
