MATH & PSYCHOLOGY TEACHER SUMMARY

- The university's only intern allowed to teach AP classes, AP Statistics, and AP Math II (Common Core-Algebra I, Algebra II, Geometry, Probability & Statistics).
- Project leader and organizer for the successful Electronic Geometry Axiom Systems Project (EGASP), a new technology tool (GPS) for teaching high school Geometry.
- Highly skilled at using technology in the classroom as a teaching tool to reach students.

PROFESSIONAL EXPERIENCE

STUDENT HIGH SCHOOL MATH TEACHER

Crawford High School, Greenville, NC / Spring 20xx – Fall 20xx

- Taught Standard and Honours Math 11 and AP Statistics in a culturally diverse setting.
- Incorporated math technology tools, Increasing Interest, and assisting problem-solving/reasoning skills.
- Taught calculus and further math to 45 students on information compiled from multiple sources, including textbooks, online sites, and other educational materials.
- Assessed submitted class assignments, determined grades, and reviewed work with struggling students to boost their success.

SCHOOL COUNSELOR & MATH TUTOR

Greenleaf Schools, Ohio / Fall 20xx – Fall 20xx

- Collaborated with the subject teaching team in Private Learning Community (PLC) meetings to discuss unit plans, best-known counseling methods and tools, curriculum development, and curriculum alignment.
- Provided academic assistance to students in the Honors Math II class. One of 3 math tutors for approximately 10-15 students per daily session.
- Implemented evidence-based methodologies and interventions to foster psychological health.
- Assisted high school seniors in completing college applications and meeting the requirements necessary for graduation.
- Provided crisis intervention in response to emergencies, employing existing trust and rapport to de-escalate situations.

PSYCHOLOGIST

Nesty Labs Ltd. California / Fall 20xx – Summer 20xx

- Interviewed, observed, and surveyed patients to gain necessary information for psychological diagnosis.
- Evaluated patients' goals and mental and practical conditions to develop individualized courses of treatment.
- Prepared reports documenting mental health assessments after meeting with and observing patients.
- Trained 19 future psychologists on best practices.
