

# Getting Started With Attendance LTI - Canvas

## Creating a Developer Key for Qwickly

Create a key for Qwickly in your Canvas Instance.

1. Go to Admin > Your Instance Account > Developer Keys > Add Developer Key

2. Enter the following key settings:

Key Name: **Qwickly**

Redirect URIs:

**https://www.qwickly.tools/attendance/takerecord/**

**https://www.qwickly.tools/attendance/systemsettings/**

Icon URL: **http://goqwickly.com/imgs/logo\_250x250p.png**

3. Save Key

Key Settings

Key Name: Qwickly

Owner Email:

Redirect URI (Legacy):

Redirect URIs:  
https://www.qwickly.tools/attendance/takerecord/  
https://www.qwickly.tools/attendance/systemsettings/

Vendor Code (LTI 2):

Icon URL: http://goqwickly.com/imgs/logo\_2

Notes:

Cancel Save Key

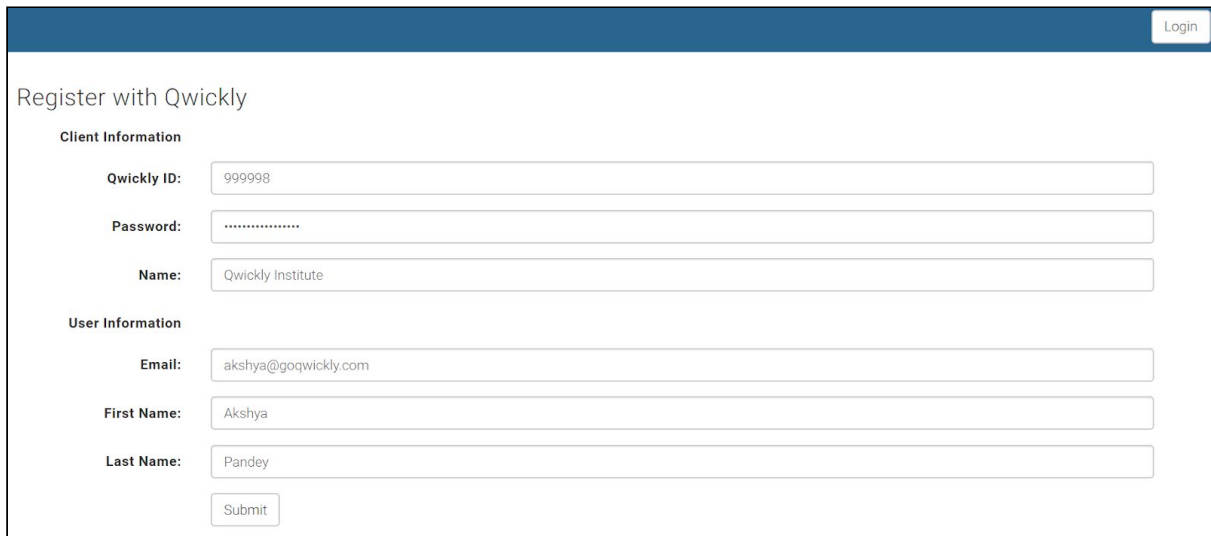

Remember the Developer ID and Key for your instance registration.

	Qwickly	No User canvasbeta@goqwickly.com	ID: 121620000000000005 Key: 6mwhsokj1crG0sCzk72	Access Token Count: 0 Created: Apr 25 at 9:56am Last Used: Never

## Registering with Qwickly

For first time setup, the Client Information has to be registered with Qwickly, along with a user account to manage the client. You will need your **Qwickly ID** and **Password** to register. (If you are unsure about this information, please contact us)

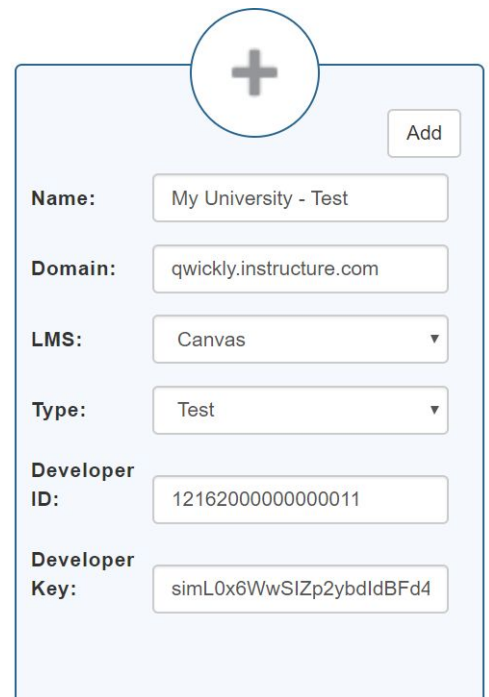

1. Go to <https://www.qwickly.tools/register/attendance/>
2. Fill out the Client Information and User Information fields
3. Press Submit. You will be logged into qwickly.tools as the registered user.

## Registering Your Instance with Qwickly

Once inside the Dashboard, you can manage your clients and register instances.

1. From the Dashboard, navigate to **Manage Instances** (<https://www.qwickly.tools/instances/manage/>)
2. Select the client you wish to add an instance for.
3. Register your instance with the following values:
  - a. Name: **<Name Your Instance>** (Ex: My University - Test environment)
  - b. Domain: **<Your Domain>** (example: qwickly.instructure.com)
  - c. LMS: **Canvas**
  - d. Type: **Test/Production**
  - e. Developer ID: **<Qwickly's Developer Id from your Instance>**
  - f. Developer Key: **<Qwickly's Developer Key from your Instance>**

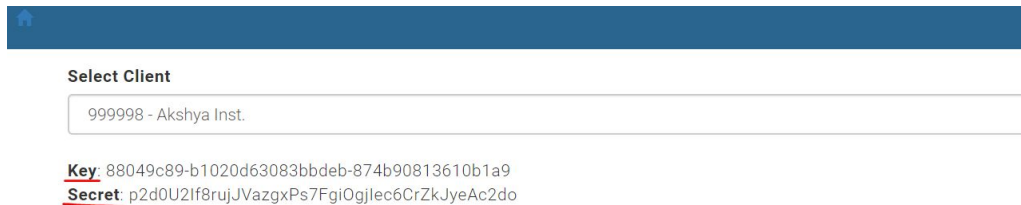

4. Once saved, your instance will appear in the page.

**Note:** Your instance may be using custom domains. You can add custom domains for an instance from Manage Instances and viewing custom domains.

### Get Your LTI Client Key and Secret

Quickly will provide each Client with a Key and Secret that will be used when creating the LTI link for Attendance. You will find your key and secret on the top of the **Manage Instances** page.

Select Client

999998 - Akshya Inst.

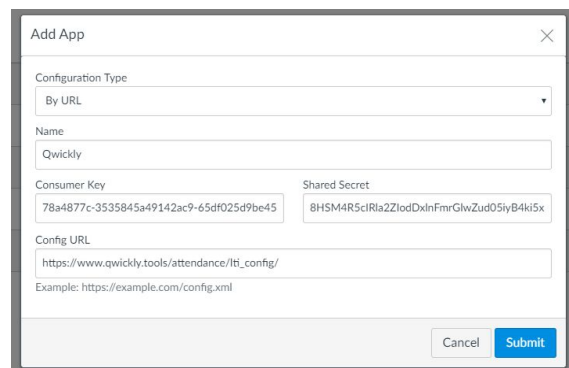

**Key:** 88049c89-b1020d63083bbdeb-874b90813610b1a9  
**Secret:** p2d0U2lf8rujJVazgxPs7FgiOgjlec6CrZkJyeAc2do

### Creating the LTI Link for Attendance

Create the LTI tool link for Quickly in your Canvas Instance.

1. Go to Admin > Your Instance Account > Settings > Apps > View App Configurations
2. Click +App and change configuration type to **by URL**
3. Enter the following app settings and create tool:
  - a. Name: **Quickly Attendance**
  - b. Consumer Key: **<Client Key from Instance Manager>**
  - c. Shared Secret: **<Client Secret from Instance Manager>**
  - d. Config URL: **https://www.quickly.tools/attendance/lti\_config/**

This LTI Tool link will appear on a course's navigation bar.

Add App

Configuration Type: By URL

Name: Quickly

Consumer Key: 78a4877c-3535845a49142ac9-65df025d9be45

Shared Secret: 8HSM4R5cIRla2ZlodDxInFmrGiwZud05iyB4ki5x

Config URL: https://www.quickly.tools/attendance/lti\_config/  
Example: https://example.com/config.xml
