PROJECT: Create Your Own LinkedIn Profile

We have retired this resource. You may continue using it, but we are no longer monitoring or updating its content. Visit www.ngpf.org for newer resources.

In this Project, you will build on professional profile skills you've learned thus far and create your own LinkedIn Profile.

There are two options for how to complete this Project:

Option I: Create Your LinkedIn Profile on Paper

Click here to see our <u>example LinkedIn profile</u> (of Mr. Burns from *The Simpsons*). You can use this as a reference for how a LinkedIn profile should look.

When you are ready, use this template to create your own paper-version of a LinkedIn profile for yourself.

For best results, make sure to replace the information from the example with your own information. That will allow you to keep the formatting of the document the same, so it looks as much like a LinkedIn profile as possible.

Option II: Create an Actual LinkedIn Profile on the LinkedIn website

Visit the <u>LinkedIn website</u> and create your own actual online profile.

If you need assistance, here's a set of <u>resources</u> you can use to create an outstanding profile.
