

1. Meeting Information

Date/Time of the Meeting:	18/06/2015 11:00-12:00
Inviting person:	Monica Franceschini
Minutes takers:	Monica Franceschini, others helping
Purpose of the meeting:	Apps Chapter weekly call
Venue:	GoToMeeting (virtual)
Phone details (if PhC):	https://join.me/conwetlab

2. Attendees

Please mark your name in the table below if you have attended the meeting.

Name	Company - Chapter/WG	Attended?
Francisco de la Vega	UPM	Y
Alvaro Arranz	UPM	Y
Aitor Magan	UPM	Y
Javier Soriano	UPM	Y
Davide Zerbetto	E-IIS	
Monica Franceschini	E-IIS	Y
Manuel Escriche	TID	

3. Agenda

1. Demo
2. Action points from previous meeting

4. Minutes of meeting

- **Demo progresses**

EXTRACT from previous meeting (to use for check)

We have a community account and we cannot deploy all of the GEs, with a single account. With a single quotas you can deploy only one single GE. 1 default quota for each account. 1 public ip, but we need much more .

Resources:

IdM → Global Instance already available in FIWARE Lab

Context Broker → no need for public IP

Mock component in the same VM as CB

CEP in the same VM as CB

CKAN → we need a Public IP

Store → we need a Public IP

Wirecloud → we can use the Global Instance

Marketplace → we need a Public IP

Repository → no need for public IP

SpagoBI → we need a public IP

We need 4 public IP

SpagoBI + CB + mock component + CEP → default maximum quota

CKAN → default quota (Aitor will ask for default quota)

Store + Repository → default quota (Fran has already a community account)

Marketplace → default quota (Alvaro has already a community account)

- **Architecture:**

Davide suggests to remove the GErI and every sentence connected with it.

Add a sentence explaining the what dataset is.

Link to technical document (we have to put there technical information: VMs info, configuration, details on implementations, ...):
