

# Read this first

Please add project ideas by Thursday Feb 17 2022 if possible

**Instructions:** Copy/paste the template below and add your project's details. Remember:

1. This year, GSoC will support both **medium-sized (~175 hours) and large-sized (~350 hours) projects** - take this into account with your expectations and project sizes.
2. **Projects must be code projects.** Not research projects or tech projects that aren't code (e.g. no pure design, docs, or ux projects)
3. **Questions?** Please email [obf-gsoc-mentors@googlegroups.com](mailto:obf-gsoc-mentors@googlegroups.com) (all mentors and admins), [obf-gsoc-admins@googlegroups.com](mailto:obf-gsoc-admins@googlegroups.com) (admins only), or reach out on [Twitter](https://twitter.com).

**TEMPLATE:** (please copy/paste this template to add your project below)

## PROJECT TITLE + ORGANIZATION

- **Project description**
  - *<tell us about your project>*
- **Project size**
  - *<175 or 350 hours>*
- **Languages and skills needed**
  - *(Shorter lists are more likely to attract a broader range of candidates)*
  - Language / skill
  - Language / skill
- **Difficulty**
  - *<Easy/Medium/Hard> - if possible use qualifiers, e.g. "easier if you know react, medium if not"*
- **Estimated Length**
  - *<number of weeks> - it can range from 12 to 22 weeks, but we still don't know if and how it will be required in the organization's application form.*
- **Mentors**
  - *<name>, contact info (email, github id, etc. as desired)*
- **Student Benefits**
  - *<details if relevant / or delete>*
- **How to Apply**
  - *<instructions if relevant - maybe add a chat room, application template, or other requirements>*

# 2022 OBF projects
