<b>TITLE</b>	Bill to Adopt New Organization Funding Model

**BACKGROUND**

To ensure equitable and sustainable financial support for all student clubs and organizations, ASUCR utilizes a structured funding model that establishes consistent baseline allocations and responsible growth parameters. Under the current model, newly registered organizations receive a standard net allocation of \$1,000 to support their initial programming, operations, and member development. As organizations grow and demonstrate ongoing engagement, their net allocation may increase by up to ten percent (10%) each year, in accordance with the ASUCR Organization Funding Chart. These incremental increases are designed to reward consistent activity while maintaining fairness across organizations. However, all annual adjustments are subject to the maximum allowable net allocation limits outlined in this policy to ensure fiscal responsibility and broad access to funding for the entire student community.

Over the years, ASUCR has funded 840 student clubs/organizations with 461 returning for funding through the ASUCR Finance Committee. Last year, ASUCR funded general allocations for 341 student clubs/organizations.

By the funding model and including those who have received funding before in the current model, our base allocation would continue to grow exponentially over the next 5 years.

**Problem #1:** If ASUCR were to continue the current funding model, we would need the following amounts to be able to fund in the next 5 years.

2025-26	2026-27	2027-28	2028-29	2029-30	2030-31

Based on the enrollment projections, allocation projection and assuming 25% unspent returning to the reserve each year, there is a vast difference between what our funding model would require and is available to fund.

**Solution: Proposed Funding Model beginning FY26-27**

Core Changes:

1. Budget Applications to continue to understand organizations needs
2. Increase will be based on expense history

**Winter Quarter:** Open Budget Applications (Monday, January 5, 2026 at 8:00am)

Questions will include:

- # of members
- Share what funding is currently being utilized for
- Future funding needs and opportunities for growth

Budget applications will close Friday March 13, 2026.

**Spring Break:** Staff to compile the finance packet with answered questions, budget history and current spending

**Spring Quarter**

- Weeks 1-4: Finance Committee Review and Deliberations
  - New Guidelines:
    - Increase the overall cap to \$4k
    - 0 – 15% spending (previous budget years) – 0 increase
    - 16-50% spending (previous budget years) – 3% increase
    - 51-75% spending (previous budget years) – 5% increase
    - 76-100% spending (previous budget years) – 7% increase
- Week 5 (Friday): Finance Committee Releases Initial Funding Recommendations
- Week 6-7: Finance Committee Appeals
  - Organizations will have the opportunity to appeal their initial funding recommendation via a hearing with the Finance Committee
  - Revised Funding Approved at the end of week 7 committee meeting
- Week 8: Consolidated ASUCR Budget to Finance for committee approval
- Week 9: Consolidated Budget to ASUCR Senate for approval

**How would this change impact the funding availability?**

Overall it slows the rapid growth to the general allocations to a more manageable pace.

Based on 2024-2025 spending, the new projections would be:

2025-2026	2026-2027	2027-2028
\$544,622.53	\$576,596	\$599,870

Based on the enrollment projections, allocation projection and assuming 25% unspent returning to the reserve each year, the difference between allocations and available decreases.

It still leaves a need of over \$100,000 each year. Additionally, these projections do not account for new organizations seeking funding. The new budget model would set-aside \$10,000 for new organizations to apply for funding during the fiscal year. New organizations would then apply for and be considered funding moving forward in the winter/spring process.
