**SOLVING
THE WORLD'S
GREATEST
PROBLEMS**

Yep, we're crazy. (But so are you.)

Solving the world's greatest problems is an audacious proposal. And let's be clear—without God, we could do nothing.

For centuries, God has called his people to push back the darkness with his light. He moved the faithful widow Fabiola to establish the first hospital. He inspired the Bishop of Caesarea to invent the first soup kitchen, homeless shelter, hospice, and orphanage. Curing diseases, building hospitals, fighting injustice, and caring for the brokenhearted is our legacy.

Our mission is far from complete.

Together, we can position enterprises to stand in the gaps of brokenness. Make investments for both financial return and compounding impact. Deploy philanthropic capital to accelerate ministries that focus on the ills humanity suffers.

God wants to do more with you. Because he wants more for you.

God graciously invites us to partner with him in the redemption of this world. No sidestepping or looking the other way. We are made to solve the world's greatest problems with God at the center of it all.
