

Hydrology Section Honor-Naming Nomination Template

The Hydrology Section Task Force on Honors and Awards seeks nominations of distinguished hydrologic scientists for whom the Hydrologic Sciences Early-Career Award, the proposed Hydrologic Sciences Education Award, and other possible hydrology honors might be named. AGU policy regarding named awards can be found at <https://www.agu.org/Honor-and-Recognize/Honors/Nomination-resources/Honor-Program-Policies> (click on “Naming Policy”). We draw your attention to the fact that only deceased former colleagues can be considered for this kind of honor. Nevertheless, those nominations that are less than three years after the death of the nominee will be fully considered by the Task Force, while recognizing that the award naming would likely become official no earlier than three years after the nominee had died. Original nominations should use this template (maximum 2-pages) and be submitted via email to future.hydrology.awards@gmail.com, with a copy to John.Wilson@nmt.edu. Each nomination need only be endorsed by one person. The Task Force will review each nomination and, if appropriate, request a full-package final nomination that will follow a letter format to be prescribed and will require endorsements by multiple (at least three) individuals. If you have any questions, please contact future.hydrology.awards@gmail.com.
