Access to FertilityTreatment in [insert your County]

Dear [Your MP's name],

I am writing to you regarding the level of provision of fertility treatment and IVF services in your constituency.

1 in 6 people in the UK are struggling with fertility issues, and many, like me, cannot access the NHS-funded treatment to which we should be entitled to.

This policy is affecting me because *(Explain your circumstances)*

According to the charity Fertility Action, there is a lack of understanding of the NICE Fertility Guideline among GPs and Commissioners, and this is leading to poor commissioning decisions and compromised NHS services and outcomes. For someone like me, that means the chance of becoming a parent could be lost.

My local Integrated Care Board [INSERT NAME OF ICB] falls short of the NICE Guideline, and this negatively impacts my chance of having a family.

As my MP, I would love some help/support alongside my IFR that I've submitted to the ICB.

Did you know that only 27% of IVF cycles were NHS-funded in 2022, dropping by 13% in a decade, whilst ICBs continues to reduce what they offer in regards to treatment cycles for patients.

Kind regards,

[Your name]
