

## Stay

### Verse 1

What is the meaning of life  
When it's all sadness and blues  
Without you baby, I am nobody  
Wouldn't want to be so worthless  
But life is a cruel joke

### Chorus

Dreams will never come true  
For me they never will do  
I know the ending would be the same like everything  
It's gonna end, all ending some day

### Verse 2

It is probably okay  
If I decide not to stay  
After all I am just a nobody  
Within days, some weeks or something  
The memories will fade

### Chorus/Outro

Dreams will never come true  
For me they never will do  
I know the ending would be the same like everything  
It's gonna end, all ending some day

Dreams will never come true  
I know they never will do  
Without you what I'm gonna do?  
Now though I have you  
Can that be true?  
I'm scared of you  
If that is true, will you stay? My love
