1. Monaco Yacht Show Event 2025 - is the header top left, which looks a little weird, please can you change to something like "House of Robb at the Monaco Yacht Show, 2025"

Home Page

1. Robb Report Monaco Logo at the top of the white box, above "Join us" (**STUNNING!**)

Thank you!

2. Please can we refer to it as Port Hercules (rather than Hercule - which is the French way of writing it)
3. Homepage video at bottom of the page please replace and link in the [general HoR](#) one
4. Make sure RR Monaco logo is used throughout (currently US one is featured throughout) - logo in the google drive
5. Please can you update main landing page text to the following:

This year, *Robb Report* & Moravia Yachting are joining forces to provide the ultimate luxury oasis amidst the hustle and bustle of Monaco Yacht Show. Join us at **Marius**, just steps away from the show in Port Hercules. A pretty, private space for yachting's in-crowd, we'll be hosting our brokers and friends as well as tastemakers from the worlds of spirits, cars, fashion, real estate, travel and more. Meet your broker over a glass of Champagne before heading into the main event, or take a break and sit in on a thought-leadership series by those who set the trends, not follow them.

House of Robb will be your tranquil lounge just steps from the yachts. Enjoy drinks and canapés by celebrated French chef Sebastien Sanjou, listen to daily panels hosted by the *Robb Report's* editorial team and industry leaders, or simply watch the harbour without the rush.

6. US English has been used throughout. We also don't use oxford commas.

7. It should be Programme on the web page, not program

8. Please add a [DETAILS Page](#) (with key info below)

The Venue:

**Marius Monaco, Restaurant & Bar
6 Quai Antoine 1er, 98000 Monaco**

House of Robb's pop-up at the Monaco Yacht Show will take place at the Upper Mezzanine and Deck of Marius Monaco.

Where Marius is located is moments from the action but a world away from the crowds, Marius' location in the heart of Port Hercules offers a convenient access point to the show.
