

- What do you notice about the pie charts?

The charts are for different dates.

- What do you wonder about the data?

Why are the charts so different?

- Use the fill-in-the-blank prompts to summarize your thoughts:
- “I used to think supply and demand was how cost was controlled. The more supply and less demand, the lower the cost. However the charts show me that if there is a lot of demand, the price can be high. Even when there is more than enough supply for the demand. ”
- “Now I think there are a lot of factors that affect pricing and profits. It is not a one size fits all equation. The location, availability, the type of people you are selling to, cheaper options, selection, etc. all effect cost. ”
- “I wish I knew more about how to determine cash flow”
- “These data visualizations make it easier for me to see the different variables and values. See the information makes it easier to evaluate and comprehend. ”
