ABSTRACT

Abstract in English in one paragraph with a maximum of 150 words in English with no formulas. The abstract at least contains the background, objectives, methods, results and recommendations (if any). The abstract does not contain mathematical descriptions and statistical language. At the end of the abstract ends with a maximum of 4-5 words keywords that can represent writing.

Keywords: 4-5 words keywords.

INTRODUCTION

It contains research or writing background so that it raises problems that need to be solved. Theories and previous research references that form the basis of the writing are included in this section in the form of paragraphs, not sub-chapters, as well as research gaps from current research. Articles are written on A4 paper, 4 cm above, 3 cm below, 4 cm on the left, and 3 cm on the Calibri font size 11.

LITERATURE REVIEW AND HYPOTHESIS DEVELOPMENT

The literature review contains a review of various theories that underlie the emergence of research that includes multiple theoretical foundations of the variables used in this research—accompanied by a framework and hypothesis (if any). (The citation format uses the APA 6th Edition format). It is recommended to use the reference manager application (Mendeley).

RESEARCH METHOD

The research method contains: types of research, population and sample, sampling method, analytical tools and reasons for their use.

RESULTS AND DISCUSSION

The discussion contains the results and analysis of the study. Results have the results of the data analysis.

Example table:

Table 1		
Respondent Demographics		
Information	Frequency	Percentage
Male	75	75%
Female	25	25%

Source: data processed in 2022

The analytical study contains a combination of data exposure, theoretical analyses, and previous research combined into one study that explains various proofs of hypotheses or answers to various studies conducted.

CONCLUSIONS AND SUGGESTIONS

Conclusions describe the answers to the hypotheses and/or research objectives or findings obtained. The decision does not contain a repetition of the results and discussion but rather a summary of the findings.

REFERENCES

All citations must be written in the Bibliography with a minimum requirement of 80% from international journals (recommended). Bibliography writing uses the APA (American Psychological Association) format. It is recommended to use Mendeley's reference manager.
