

As the world faces the Covid-19 pandemic a lot of agility instructors are facing the fact that in person classes are drying up currently. Many of them face the real possibility of losing all income if they don't adapt. To combat this issue many are moving to teaching classes online. This is my attempt to help them out by compiling a list of classes as they are shared with me. These classes are not in any particular order. If the list grows, I will separate into categories for easier consumption.

Balance and Body Games
