Тема: Письмове множення на двоцифрове число .  
Розв'язування рівнянь.

Handwritten mathematical work on grid paper. At the top, five multiplication problems are shown in columns:

$\begin{array}{r} \times 78 \\ 23 \\ \hline 136 \\ 1950 \\ \hline 1950 \end{array}$	$\begin{array}{r} \times 49 \\ 32 \\ \hline 248 \\ 2548 \\ \hline 2548 \end{array}$	$\begin{array}{r} \times 24 \\ 48 \\ \hline 192 \\ 1152 \\ \hline 1152 \end{array}$	$\begin{array}{r} \times 39 \\ 27 \\ \hline 273 \\ 953 \\ \hline 953 \end{array}$	$\begin{array}{r} \times 38 \\ 54 \\ \hline 152 \\ 2052 \\ \hline 2052 \end{array}$
---	---	---	---	---

Below the multiplications, the text "Розв'язи рівняння" (Solve the equations) is written. The equations and their solutions are:

$x \cdot 7 = 7182$	$y : 56 = 7560$
$x = 7182 : 7$	$y = 7560 \cdot 56$
$x = 1026$	$y = 423360$
$1026 \cdot 7 = 7182$	$423360 : 56 = 7560$
	7560

At the bottom, the text "Приклади 374" (Examples 374) is written.

Handwritten mathematical work on grid paper, showing the same equations and solutions as the previous image:

$x \cdot 7 = 7182$	$y : 56 = 7560$
$x = 7182 :$	$y = 7560 \cdot 56$
$x = 1026$	$y = 423360$
$1026 \cdot 7 = 7182$	$423360 : 56 = 7560$

Приклади 374
