

# Perdita Finn - Collaborate With Your Ancestral Spirits to Manifest the Miraculous 2023

## What You'll Discover in These 7 Weeks

In this 7-week transformational course, Perdita will guide you through the fundamental skills and competencies you'll need to successfully reconnect with your ancestors, unlock your inner psychic potential, and utilize ancient wisdom to manifest miracles in your everyday life.

### Module 1: Open a Portal to the Dead to Experience the Presence & Wisdom of Your Ancestors (August 1)

Embark on an illuminating journey to re-forge your bond with those who've come before you — your ancestors and the departed. **Transcend the boundaries of your patriarchal lineage**, venturing into the intricate networks of your karmic and biological roots spanning generations.

This module guides you through **traditional practices of creating space for the dead in your life**, with a strong emphasis on trusting your intuition. Discover how embodied experiences — including food offerings, incense, perfume, mantra, and song — serve as bridges, summoning the departed to you. Learn to welcome all who have passed, recognizing their subtle cues when they answer your call.

You'll design your unique litany to **honor the departed in your life**, exploring enjoyable and inspiring ways to invite their presence and perceive their messages.

In this session, you'll:

- Learn to **identify your unique ancestral root system** and construct a personal ancestral litany
- Experience the transformative power of **summoning spells and mantric prayers**
- Design spaces to welcome the departed into your life with **diverse ancestral altars**
- Release the grip of lineage and **fully embrace your rich root system**
- **Engage all of your senses in deep communication** with the unseen
- Harness the power of your intuition and imagination to **strengthen your bond with those who have passed**

## Module 2: Collaborate With the Dead to Enrich Your Life With Miracles (August 8)

How can you invite the dead's presence and guidance in a way that promotes **healing and empowerment**? Why does offering the departed a task bring them more tangibly into your reality? And what kind of tasks are appropriate to extend to them?

In this module, you'll tackle these questions, including **how to interact with the dead who may have been challenging in your life** — those people you might still harbor anger or mistrust towards. You'll also explore any boundaries or restrictions you need to set, asking the question, "Are there any individuals I shouldn't engage with, and if so, how can I navigate those situations?"

**Understanding your needs and desires** in this collaboration between you and the dead can be a journey, especially in a society that values independence, but handing your concerns and anxieties over to the departed has immense rewards.

You'll learn how to identify which tasks are best suited to specific ancestors, when a team of departed is required, and how to **trust the miracles unfolding in your life**.

In this session, you'll:

- **Establish daily rituals**, paving the way for everyday miracles from the departed
- Explore how the dead can contribute to **atonement for past errors** and transgressions

- **Unearth strategies to overcome seemingly insurmountable problems** and complicated situations with the assistance of your ancestral allies
- Experience the reassuring truth that **you are never alone** — you have more assistance than you could ever envision
- Discover **the most potent antidote to anxiety**, which is the comforting presence of those who watch over you from beyond the veil

### **Module 3: Speak the Language of Eternity to Master Communication With the Departed (August 15)**

Picture **honing your ability to communicate with the departed** using a variety of tools, from the I Ching, runes, and Tarot to consulting psychics, seers, and mediums. Imagine **understanding the subtle messages delivered through the animals** in your life, acting as messengers from the spiritual plane.

What if you could **perceive the entire natural world as an oracle deck**, guiding you towards manifesting the miracles you need?

In this module, you'll learn to engage with these oracles in a way that **strengthens your intuition**. You'll discover an **empowering faith in the dead** and their generous guidance — releasing superstitious anxieties and concerns — understanding that your ancestors are here not to burden you but to help you **realize your true self**.

During this session, you'll:

- Discover and hone your preferred oracular tool for **communicating with those on the other side**
- Learn techniques for **receiving daily communications from your loved ones** beyond the veil
- Enhance your connection to the unseen world by **developing your psychic abilities and intuition**
- Transform your perceptions about mortality and the process of dying, cultivating a **peaceful acceptance of life's inevitable cycle**

- **Reclaim your primal animal wisdom**, enhancing your relationship with the unseen world and the messages it imparts

## Module 4: Become the Dead for Rebirth, Renewal & Reunions (August 22)

What might happen when you **unearth the deeper narrative of your soul's journey**? How might you unlock the understanding of reincarnation and trace the steps of your soul's past and future selves?

Acknowledging and **embracing your identity as both the living and the dead** will help you transcend linear perspectives of reincarnation and harness the dynamism of the multiplicity of lives residing within you.

Your soul doesn't just remember trauma, it's also **a reservoir of forgotten gifts and talents**, ready to be accessed as soon as you begin following the thread of the long story of your existence. In doing so, you'll weave yourself into a tapestry of forgotten relationships — with yourself, with the land, and most importantly, with others.

In this session, you'll:

- **Access the wisdom accumulated from your past lives** through understanding your fears, talents, inhibitions, and inclinations
- **Catalyze a shift** in reincarnate patterns that seem stuck, enlisting the aid of your ancestors
- Open avenues of knowledge and **wisdom that surpass ordinary human comprehension**
- **Obtain guidance** on navigating reincarnate entanglements
- Experience the liberating effect of **breaking free from societal constructs** by claiming the long story of your soul
- **Craft a heartfelt prayer for your future incarnations** and your future mothers and fathers

## Module 5: Embrace Soul Appointments for Guidance, Help & Nourishment (August 29)

How can you find meaning in life's sudden and unpredictable events — the accidents, tragedies, and inexplicable departures? When you embrace them, these soul appointments can become **your most potent collaborations with those from beyond the veil**.

In this module, you'll gain invaluable insights about accepting these seemingly chaotic aspects of life, transforming your relationship with them. Instead of fearing or avoiding these moments, you'll learn to navigate them as **opportunities for profound connection and growth**.

In this session, you'll:

- **Acknowledge and honor the deepest losses** in your life, regardless of the perceived brevity of these encounters
- Learn how to **embrace the comfort** within life's most unfathomable mysteries
- Understand the implication of **saying “no” to a body, yet saying “yes” to a soul**
- Recognize the **daily soul appointments** your ancestors send you to provide you with guidance, assistance, and nourishment
- **Journey through the darkness of deep time** where miracles take place and are awaiting your discovery

## Module 6: Connect With Saints, Deities & Ancient Mothers for Guidance & Companionship (September 5)

In this module, you'll learn how to recognize the saints, gods, and goddesses extending their hands to you and how to **connect with their mystical powers**.

You'll **examine the rituals and folklore** linked to traditional saints — exploring how you can recover the lost art of beatification to create secular saints — and ask the question, “What if no one on this side of the veil is a saint, but everyone on the other actually is?”

You'll also learn how understanding **sainthood can reshape how you perceive various soul appointments** — especially for those who've left too early or too painfully.

In this module, you'll:

- **Assemble an ancestral team** for a special project involving traditional, secular, and personal saints
- **Bond with age-old spirits**, who can become your most formidable guides and allies
- **Identify your heart's deepest desires** and envision their fulfillment
- **Explore traditional devotions**, from prayers to pilgrimages
- Craft a daily ritual to **cultivate the miracle you need**
- **Immerse yourself in a renewed animism** from within your heart

## **Module 7: Devote Yourself to the Dead to Transform Your Life & the World Around You (September 12)**

What if the opposite of a god is not a goddess but the entirety of the cosmos?

Picture a universe teeming with souls who remember, in lifetime after lifetime, that they've been your mother and that you've been theirs. Consider a reality where there's an abundance of mother spirits **loving, nourishing, consoling, protecting, and guiding you**.

In this module, you'll look at **what it means to devote yourself to the dead** and how this devotion can revolutionize your life. Reclaiming this lost dance between the dead and the living can **transform you and the world around you**, becoming the key to navigating the challenges of our time.

In this module, you'll:

- Discover the influence of **timing on the responses to your prayers**
- Understand the dance steps of prayer and how **movement can alter your awareness** of the dead in your life
- Uncover how misplaced devotions can contaminate the living and how transferring those feelings and desires to the dead can **free the magic** in your life
- **Review the array of tools** you've gained for collaborating with the dead
- Rewild your prayers to **begin growing the magic you need**
- **Prepare yourself for a multitude of miracles**
