Sign Up to Be A Poll Worker

Poll workers support voting locations, ensure technology functions, and help minimize long lines and delays at polling places on election day—and poll worker shortages can lead to long lines and voter disenfranchisement, especially in communities of color and low income communities. Repair the World is proud to partner with Power the Polls, a first-of-its-kind nonpartisan initiative to recruit poll workers to ensure a safe, fair, efficient election for all voters. Register to be a poll worker at powerthepolls.org/repairtheworld.
