

Eastern Sun Resurrected v1.15b

Items

- Tinkering points now appear on items as a visible stat.

Amazon

- **Spearstorm, Dance of Death** - Reworked the bonus damage from stats formula to match the formulas of other skills (the bonus damage from dexterity and strength is no longer additive with the synergies, but instead function as another layer of bonus damage in parallel to the synergies).
- **Tornado Shot** - Reduced secondary projectile range, increased next hit delay from 5 to 7 frames (in order to encourage crossbow use).

Barbarian

- **Whirlwind** - Increased next hit delay from 2 to 6. Tripled weapon damage. It should no longer crash the game due to too many on striking procs.
