AstroLink Proxy is committed to protecting your privacy. This Privacy Policy explains how we collect, use, and safeguard your information when you use our app. By using AstroLink Proxy, you agree to the terms of this policy.

1. Information We Do Not Collect
No Personal Information: AstroLink Proxy does not require account registration, so we do not collect names, email addresses, or other personal details.
No Activity Logs: We do not monitor, store, or log your browsing activities, IP addresses, or connection history.
2. Information We May Collect
To improve our service, we may collect limited, non-identifiable data:

App Usage Data: Information about app performance, crashes, and feature usage to help us enhance the user experience.
Connection Statistics: Anonymous aggregated data such as server load or connection duration to optimize performance.
3. How We Use Your Data
Service Improvement: Analyze app performance and resolve technical issues.
Maintenance and Optimization: Ensure stable, fast, and secure connections.
We strictly use this data for internal purposes and do not share it with third parties.

4. Third-Party Services
AstroLink Proxy may use third-party services (e.g., analytics tools or ad networks). These providers may collect anonymous data in accordance with their privacy policies. We recommend reviewing their terms.

5. Data Security
We employ industry-standard encryption and safeguards to protect any data collected. However, no method of transmission or storage is 100% secure, and we cannot guarantee absolute security.

6. Your Rights
Since we do not collect personal data, there is no personal information to access, update, or delete. For any concerns, please contact us.

7. Updates to This Policy
We may update this Privacy Policy periodically. Any changes will be reflected in this document, and you are encouraged to review it regularly.

8. Contact Us
If you have questions about this Privacy Policy, please contact us at:
sheestop@gmail.com.

This concise policy ensures transparency while addressing privacy concerns typical for a proxy app. Let me know if you'd like any adjustments!
