Cuz Twitter ain't rly fun nomo. Just a bunch of corny debates all day & night chile... energy is too precious to waste on ppl or things u don't like. Life is so much more fulfilling when u give ur energy to what & who you love. Imagine talkn bout ya opps all day. Exhausting 😞

yaya @lovecraftcounty · 10 Jun

Why you giving them tik tok barbz all your attention as if the real ones aren't right here on this app? @NICKIMINAJ

Huening Kai sister is kind of ugly tbh

[@Bri & Ely fanpage + alzssa child](#) worry about jessica being a fad

kaylpls Today at 2:59 PM

Jessica is richer than jeongyeon
Jeongyeon take a hiatus every day
Jessica doesn't.

general

KaylaPls 10/26/2021

Don't pick arguments with me if you can't handle being called **fat**

KaylaPls 10/24/2021

ill call you **fat**, stupid, ugly weird anyday

KaylaPls 10/24/2021

but it would be bad if i said jeongyeon got **fat** and nayeon's left leg broken

KimLip (@KingWaldorf) 10/20/2021

@KaylaPls why r u involving everyone when i literally just spilled my guts to you.

KaylaPls 10/20/2021

i didnt ask for you to do that

KimLip (@KingWaldorf) 10/20/2021

?????

my friend died and you're saying this shit like what the fuck is wrong with you

KaylaPls 10/20/2021

yea i didn't really need to know that

909zenka 10/20/2021

you did

KimLip (@KingWaldorf) 10/20/2021

i told you so you know how much im already going through.

and how you need to listen to me

KaylaPls Today at 5:14 PM

he deserves nothing but excrement and death

@sophie (@RebelFantasy) **@KaylaPls** when will you address this??

KaylaPls Today at 5:18 PM

its a joke

[KaylaPls]: casey sounds huge

[wishiasa90sbaby]: I'm convinced they made th

Chat '!?' or '/help' for a list of chat commands.

[Pink_Fairie]: wha-

[KaylaPls]: i feel like casey is plus size

 **KaylaPls**  Today at 1:28 PM
I made visionary

 **KaylaPls**  Today at 1:28 PM
I'm sorry gies

 **KaylaPls**  Today at 1:28 PM
That plus size person did not make visionary

 **KaylaPls**  Today at 1:27 PM
Yes

 **KaylaPls**  Today at 6:12 PM
no we wont address it next

 **KaylaPls**  Today at 3:51 PM
and no that person with the deceased friend has never bought animations for me

 **KaylaPls**  Today at 3:51 PM
I buy all VISIONARY animations.

(Kayla did not buy all animations, the HRS have paid for MANY of them.)

 **@MothaHilton** Idk why Kayla tryna apologize

 **KaylaPls**  Today at 6:25 PM
I'm not going to apologize lol

 2

 **@MothaHilton** I'm disrespectful when you disrespected the gay community

 **KaylaPls**  Today at 6:28 PM
I have tons of lgbt friends

 **KaylaPls**  Today at 6:38 PM
Can I just say that I have tons of lgbtq friends cause chile

👁️ 4 **S** 4  1 **T** 3 **O** 2 **P** 1 👍 1 **U** 1 🙄 1

i alredy took icsm

Here is VISIONARY COFFS Nametag module

```
local Hide = false
local Players = game.Players

local module = {}

module.ToggleNames = function(bool)
    Hide = bool
    for _, player in pairs(Players:GetPlayers()) do
        if player.Character then
            local head = player.Character:FindFirstChild("Head")
            if head and head:FindFirstChild("PlayerDisplay") then
                head.PlayerDisplay.Enabled = not Hide
            end
        end
    end
end

module.ToggleName = function(char)
    local head = char:FindFirstChild("Head")
    if head then
        local display = head:FindFirstChild("PlayerDisplay")
        if display then
            display.Enabled = not Hide
        end
    end
end

return module
```

And here is ours

```
[KPOP] VISIONARY | DANCE STUDIO x AnimationList x NametagHide x

local Hide = false
local Players = game.Players

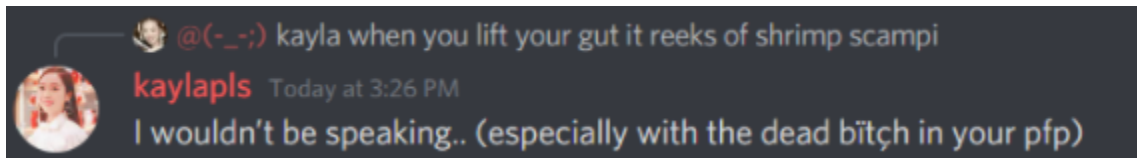

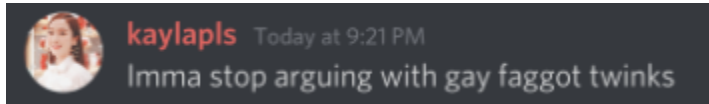

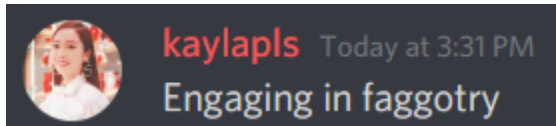

local module = {}

module.ToggleNames = function(bool)
    Hide = bool
    for _, player in pairs(Players:GetPlayers()) do
        if player.Character then
            local head = player.Character:FindFirstChild("Head")
            if head and head:FindFirstChild("PlayerDisplay") then
                head.PlayerDisplay.Enabled = not Hide
            end
        end
    end
end

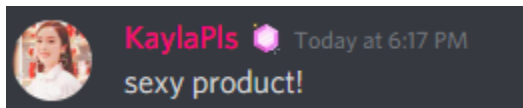

module.ToggleName = function(char)
    local head = char:FindFirstChild("Head")
    if head then
        local display = head:FindFirstChild("PlayerDisplay")
        if display then
            display.Enabled = not Hide
        end
    end
end

return module
```

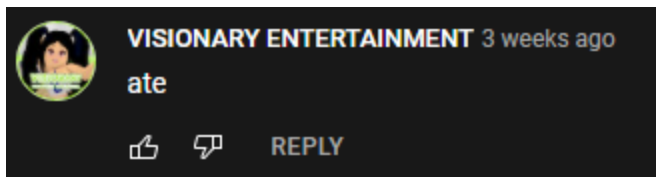

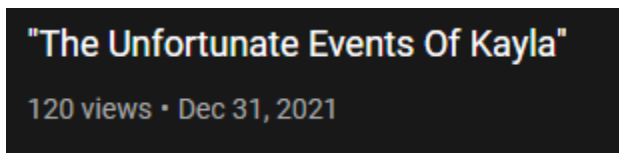

(Falsely accusing ARCADIA CREATIVE of copying Visionary, when it's the same photo cropped, in the second one you can see the game's name at the top but not in the first.)
