Abstract (The abstract must not exceed 250 words)

An abstract is a summary of the entire content of the article to provide a general description to the reader without having to read the entire article. To make it easier for readers to select reading material from the article. Components that must be included in writing an abstract include the importance of the work, objective, materials and methods, results, and main findings. The importance of the work explained the importance of your research and what the research question is. The objective is the state of your research. The materials and methods provide only important things. The results is present the important data that you get during the research. Main finding explained: Summarize the key conclusions, highlight any novel aspects, and explain how these results advance the current knowledge in the field. We recommend that you save and submit the abstract in **.doc** or **.docx format, A4-page format**. The content of the abstract will be the basis for acceptance of the oral presentation at the **ICoHeS 2026**. The abstracts will be peer-reviewed, and authors will be informed about acceptance for presentation via email. Be sure to adhere to the word limit for the abstract (maximal 250 words).

Keywords: *(Alphabetically order, Times New Roman, Italic, and Bold)*
