

World phone survey

Last month a world wide survey was conducted by the U N. The only question asked was "Would you please give your honest opinion about solutions to the food shortage in the rest of the world?"

The survey was a huge failure because of the following:

- 1 In Eastern Europe they did not know what honest meant
- 2 In Western Europe they did not know what shortage meant
- 3 In Africa they did not know what food meant
- 4 In China they did not know what opinion meant
- 5 In the Middle East they did not know what solution meant
- 6 In South America they did not know what please meant
- 7 In the U S they did not know what the rest of the world meant
- 8 In Australia they hung up when they heard the Indian accent
