

Orange County Community Resource Guide

DISABILITY SERVICES

Positive Steps Program

provides residential substance use disorder treatment to homeless men, men with a long history of criminality, and men at risk for HIV/AIDs. Assessments, individual counseling, group counseling, treatment planning, case management and referrals, and mental health therapy as needed. through evidence-based SUD treatment and mental health counseling, promote pro-social lifestyles, and sobriety while decreasing the likelihood of rearrests in the ex-offender population. At-risk HIV clientele are linked to medical resources and affordable housing opportunities while receiving SUD treatment and mental health counseling.
