Abstract

Abstract explain the core of manuscript informatively and obviously including the subject matter proposed approach and solution and show key findings and conclusions. The number of words in the abstract about 150-200 words, written in one paragraph, any unfamiliar terms should be written in italic. Font type and size are Times New Roman 11pt. Abstract was written in single spaced and the margin was narrower than main text. Keywords need to be listed and reviewed and the main terms underlying the conduct of the research. Keywords could be single word or phrase. Keywords including 3-5 words or phrase. These keywords are required for computerization. Research and abstract title search made easy with these keywords.

Keywords: *……, ……, ……*

Introduction/ مقدمة (Font size of heading 12 Bold, Times New Roman, 1.5 Spaced for English Article and 18 Bold, Traditional Arabic, 1 Spaced for Arabic Article)

The introduction includes the background of the issue or problem as well as the urgency, rationalization, purpose of the research (which distinguishes it from other studies) and review of literature or previous research. The purpose of an introduction is to justify the reasons for writing about your topic. Your goal in this section is to introduce the topic to the reader, provide an overview of previous research on the topic, and identify your own hypothesis, research, or study. Font Size 12, Times New Roman, 1,5 spaced (Eng) and Font Size 18, Traditional Arabic, 1 spaced (Ar). All the subheadings in this section should be in Font Size 12, Times New Roman, 1, 5 spaced

(Eng) and Font Size 18, Traditional Arabic, 1 spaced (Ar). Each word in subheading should be capital.

Methods / منهجية البحث

This section explains the rationale for the application of specific procedures or techniques used to identify, select, and analyze information applied to understanding the research problem/project, thereby, allowing the readers to critically evaluate your project's/study's overall validity and reliability. The method should consist of the research design, (approach and type) of the subject's characteristics, the process of data collection and data analysis.

Results and Discussion/ نتائج البحث و مناقشاتها

For articles that are the results of research, the title of Results and Discussion is used. As for research that is the result of thought, it is enough to use the title of Discussion. This section presents the results of research and discussion in a single unit, so that the author does not need to make a sub-chapter separately between the results and the discussion. The results of the research presented in this section are net results.

Data analysis processes such as statistical calculations and hypothesis testing processes do not need to be presented. Only the results of the analysis and the results of hypothesis testing need to be reported. The results of the research can be equipped with tables, pictures and graphs to clarify the presentation of research results verbally. Tables and graphs should be commented on or discussed.

The discussion in the article aims to: (1) answer the formulation of the problem and research questions; (2) show how the findings were obtained; (3) interpreting/interpreting the findings obtained; (4) relate the results of the research findings to the established knowledge structure; and (5) to give rise to new theories or modifications of existing ones.

Conclusion/ الخلاصة

The closing consists of two paragraphs. The first paragraph contains a conclusion and the second paragraph contains suggestions.

The conclusion is intended to help the readers understand why your research should matter to them after they have finished reading the paper. It is not just a summary of the main topics covered or a re-statement of your research problem, but a synthesis of key points. Pay attention to the following:

1. The conclusion must answer the research objective or hypothesis.
2. The conclusion must describe an innovation or improvement of existing science.
3. Write a Brief and Clear Conclusion.
4. Don't use Bullet/Numbering, if it has to be in the form of a paragraph.

Suggestions are written in one paragraph. This section can contain suggestions that are prepared for practical activities or follow-up research based on the results of the novelty found.
