

San Antonio Elementary Board Report

for the month of July, 2023

Submitted August 15, 2023

Esteemed Board Members:

The beginning of the school year is filled with excitement and a flurry of activity! San Antonio students are in full swing for a great year of learning.

First Grade students are learning about light and how it travels through objects as well as the characteristics of opaque, translucent, and transparent objects.

CELEBRATIONS and APPRECIATIONS

Appreciations to all San Antonio Teachers and Staff for working together to clarify our behavior expectations for common areas of the school and teach those expectations to all students for creating a culture of competence - in which all students can successfully meet our behavioral and academic expectations. This is part of our PBIS system, supporting positive behaviors to ensure an environment for learning.

Appreciations also go out to our district Maintenance Department for their diligence with getting help for our AC system repairs! We have been without AC on the north side of the building and Josh Martinez' team has set up portable ACs and been in (nearly) constant communication with the HVAC system company and a local company to troubleshoot and service the system for a long term fix.

CURRICULUM & INSTRUCTION

Our professional learning teams have begun their work together in vertical grade bands: our K-2 teachers and assistants form one team and our 3-5 teachers and assistants form a second team. We have started

- Digging into student data for determining skill gaps and areas where students need extended learning
- Planning for intervention and extension
- Prioritizing which standards need the most of our instructional time and classroom focus
- Reviewing and fine tuning our pacing of the intended learning for math and reading in light of those instructional priorities.

UPCOMING EVENTS

- Thursday August 17 - Classroom coaching for Math (MC2)
- Thursday September 7 - PAC (Parent Advisory Committee) meeting, 5:15 pm
- Week of August 28 - Month 1 attendance meetings with parents
- September 7 - NMPED Attendance for Success Conference (Ms. Vaiza and Ms. Sanchez will attend this training)

FACILITY

Emergency Drills are being conducted in the first weeks of school to ensure adults and students know what to do for a Fire, Evacuation, Shelter in Place, and Lockdown. On August 10th we conducted our **evacuation drill**, gathering all students and staff at the old school parking lot to the east of our main campus in anticipation of walking to the San Antonio Fire Station should we need to seek shelter off site. I was extremely pleased that we had a very

smooth practice of this protocol! Every class followed the expectations with excellence, and we had all students and staff accounted for at the old school parking lot in about 6.5 minutes.

San Antonio Elementary Board Report

for the month of July, 2023

Submitted August 15, 2023

One of Principal Wharton's parting gifts to San Antonio Elementary before her retirement was the vision of a dedicated space for staff professional learning and instructional resources. At this time, the **Training & Resource Room** is coming together - tables and chairs are in place, smartboard is installed, shelves are lined with leveled books, and cabinets are filled with reading and mathematics instruction and intervention resources. Staff and I are very excited about being able to fully utilize the space in the near future, pending the completion of the project to run power and internet to the portable.

I, along with the staff and students of San Antonio Elementary, appreciate your support. Please feel free to contact me with any questions. Board members are welcome to visit San Antonio at any time.

Respectfully submitted,

Kimberly Sanchez
