ATGN 189 - SP Brings The Black Hole

It's a return to form as the internet hates the ATGN crew again. Naki's internet is out but luckily SP is ready, willing, and able to fill in! Anthony has news on Idris Elba's casting in The Dark Tower, Chris has news on the upcoming Iron Fist Netflix series, and SP gives a rundown on a trailer coming with Star Wars Episode VII.

This crew is more improper than 7 out of 10 pornstars

Welcome to ATGN as Libertine at this Podcast and fan of all things Allan Moore. I have attended three Different Exxxtica Conventions. I have had the pleasure of meeting Nina Hartley, Ron Jeremy , Tera Patrick , Gianna Michaels, Aria Giovanni and more pornstars. . I can honestly tell you that this Crew is more improper than all those public fornicators. ATGN host are more improper than 7 out of 10 Pornstars. This is a proof of the audio I might record for your show.

A group of nerds from different nerdy backgrounds to talk about all things good and nerdy... and not be creative with a name.
