6th Graders

- Prepare them for salvation (later establish them as healthy new believers).
- SAT YP: before baptism, no need to rush ; case by case
 - It is good for them to participate in singing (dinner, too). But to avoid them receiving premature spiritual knowledge, in principle, we do not want them to be in the message part. Therefore, the parents may need to pick them up earlier after singing if to bring them to SAT YP.
- LD Table: once a month before baptism (when combined ; parents with them)
- Own LD class.

- LD Table together with all.

¹ Exactly what year is a good dividing point for a young person to move on the the Higher grader group should be kept flexible year by year, or even person by person.

² We'd want to bring in some younger brothers to pick up the burden for this group of YP.

Higher graders

- Shepherd them into the fellowship of and functioning in the general church life.
 - Treat them as (the best) new/young ones.
- 10th³ (this year) - 12th
- SAT YP.
- LD Table together with all.
- **No separate LD class.** Serving ones serve them person by person (instead of meeting by meeting) beyond the meetings and some in the meetings (LD is the “lab time”).

The idea:

- At least two serving ones for each YP. Both should coordinate and find time/way to feed the young people in the daily life. At least one of them should be available in the English-speaking meeting with the young person to usher them gradually into the participation & enjoyment & functioning.

³ Plus Jeremy Tien.

⁴ Available in the English-speaking meeting with the young person to usher them gradually into the participation and enjoyment and functioning.

⁵ Audrey not yet baptized

- For example, maybe following the rotation of the assigned prophesying group, if serving one 1's group is assigned to prophesy, then serving one 1 should help the young person to prophesy. That is, just treat them like young/new ones to be perfected.
