Good Faith Efforts for Access and Equity for All Students

We have live, online instructional support and two-way communication set up for students--including live instruction and tutoring built into all student's schedules every day. All academic accommodations that are provided in house during face-to-face instruction are being implemented with their closest online equivalent (which is identical to face-to-face accommodations in most cases). All special education timelines are currently running on schedule. We have been assured that all contracted related services in regard to special education are being provided in good faith and to the best of the ability of TIU11 staff.
