ToS and rules for use of these bases

- *Personal use: to make stickers/refs etc for yourself, to use for making your own art (whether that be for referencing or inserting into other pieces and drawing the rest of a figure around them etc). Parton specific packs (which will be clearly labelled) are personal use only.)*
- *Commercial use: To make stickers/refs etc for others, to use to make other art for others (whether that be for referencing or inserting into other pieces and*

drawing the rest of a figure around them, or for making refs, ref additions or adoptables). Patron specific STICKER packs cannot be sold on for commercial gain, they are personal use only. (With the sticker base packs, please do not charge less than the £50 I charge for access to them, or less than £20 for refs, or less than £5 for single poses) both mine and your time and effort is worth more than pennies! <3)

- You may NOT use the bases as follows: Do not sell on unedited bases as they are when you download them. Do not NFT anything made with these bases, or the original bases themselves. Do not use the original, unedited bases to make merch or redbubble content etc.
- If you make significant enough changes to the bases to make it/them your own, you may use them as and where you like! (eg: colour them as your OC, change the style, the coat type or species etc)
- I always appreciate credit for the original art, but it is not mandatory! <3
- Please do NOT resell the base itself on.
- Please do NOT give the base file to people who have not paid for it. I will be keeping track of who has bought/earned my bases and will be checking in every so often. If i find anyone is doing this i will be putting up bewares and sending an additional invoice for each person who has been gifted the base. (TI;Dr: You may not allow others who have not paid for this base access to it, they will have to purchase it themselves or become a patron if they wish to use it.)
- You may have to move some layers around and possibly slightly tweak them depending on your OC (this should be easy enough as everything is labelled, but I'm always happy to make small edits for a ko-fi tip!)
- You may edit the bases in the following ways: Add scars, add clothes, change the background, change hairstyles, edit human facial features, make tweaks to facial hair/body fur, remove limbs/ears/tail, edit ear style and fur type, or anything really so long as the intent is not to alter the base to sell it on as a new base.
- My artwork, whether personal, commissioned or bases (whether blank or used by others to make other content) may not in any way be used in association with NFTs.
- You may remove any of the forms or headshots included on the ref bases if you wish, but credit for the lines must still be given to me.
- You may add a tail to the rear were form for the refs (this was left off to allow back/leg markings to be more visible.)
- You may NOT: change the gender/sex of the bases, edit the poses themselves, or make drastic changes to the fur style/body style of the werewolf forms **with intent to sell a modified version of the base.** It is fine to make these edits for personal OCs or singular adopts.
- You may make the base NSFW if you wish, but please make it clear that these edits were by you. **You may NOT do this with intent to sell as a modified base.**

- You may not remove my name from the ref sheet bases, but you may make it paler ^^
